

BIOGRAPHY

Todd Vasilou is a Cybersecurity Advisor (CSA), Cybersecurity and Infrastructure Security Agency (CISA), Region 6, San Antonio, TX, where he's responsible for securing and defending U.S. critical cybersecurity infrastructure through advising stakeholders on matters of cybersecurity risk, resiliency, and posture via in-depth cybersecurity assessments, workshops, and information sharing. Mr. Vasilou coordinates and provides liaison support to federal partners and senior state and local government officials to create and enhance cybersecurity resiliency. He also participates in cybersecurity partnerships with, and across, critical infrastructure owners, operators and state, local, tribal and territorial governments; promoting collaborative efforts to reduce cybersecurity risks and threats to critical information, enterprise, communications, and control systems.

Mr. Vasilou previously served as a Security Operations Center as a Service (SOCaaS) manager with CrowdStrike, where he supervised and led Extended Detection & Response (XDR) and Managed Detection & Response (MDR) platform services for customer endpoints. As the central focal point for incident management and escalation, Mr. Vasilou coordinated with and advised customer senior leadership and technical staff on matters of detection, mitigation and remediation of cybersecurity events and incidents.

Mr. Vasilou began his career as a Cryptologic Telecommunications Technician, NSA/CSS, Fort Meade, MD (2000). In 2006, Mr. Vasilou was recruited by the Air Force Office of Investigations (AFOSI) as a Special Agent where he led criminal, counterintelligence and cyber investigations and operations. During his tenure as a Special Agent, Mr. Vasilou targeted Advanced Persistent Threat (APT) intrusion sets and served as a law enforcement liaison and digital forensics subject matter expert (SME) to Joint Special Operations Command (JSOC) (2012) and USCYBERCOM, Cyber Mission Force (CMF) (2018), in support of National Cybersecurity objectives, abroad. Previous assignments include: AFOSI Liaison Officer (LNO) to USAF 33rd Network Warfare Squadron (AFCERT); Chief, AFOSI Insider Threat; Liaison Officer (LNO) to 16th Air Force; and Task Force Officer (TFO), FBI Cyber Division, San Antonio, TX.
